gram, 71; Emma Podesta, 63.

Ruth Pow, 63; Helen Rose, 63;
Edith Colford, 60; Sarah Davies,
60; Richard Rose, 56; Mary
Houghton, 55.

Some outstanding features of
the recent school examinations
are worthy of note. Jim Brown
studied literature on his
own and made 67 per cent. Bob
Buchholz made 96 per cent in arith-
metic 1. Mildred Walton made
92 per cent in algebra and Elmer
Congram made 90 per cent in the
same subject. Lillian Lenning has
the distinction of passing her
required 21 units in her three
years of high school without
missing one day's attendance.
She also has, besides her normal
entrance, qualifications for junior
matriculation, which makes
her eligible for entrance to uni-
versity. Two other pupils, Jean
Paterson and Len Larson, have
also attained junior matricu-
lation standing.

Alberta Did Well At Regina Show

Took 85 Per Cent. of The Money
In Wheat Classes

A review of the winnings in
the various grain classes at the
world grain congress at Regina
recently, shows Alberta's total
prizes to be \$24,500 with an addi-
tional \$1,700 won by members
of the junior, intermediate and
inter-college grain judging
teams. The cash prizes taken
constitute more than one-third
of the prize money offered in
the classes concerned. In two
classes of wheat Alberta took
85 per cent. of the money and in
two classes of oats won 80 per
cent. of the money.

Mrs. Maillard's Garden Is Well Worth Seeing

Her Dahlias and Gladioli are
Especially Fine

Have you seen Mrs. Maillard's
dahlias? If not it is well worth
your while to have a look at
them. They are beautiful, both
from a point of size and color
they are quite the finest we
have ever seen. Her gladioli
are also exceptionally fine. In
fact her whole garden has been
a riot of bloom all summer.

Mrs. Maillard is now produc-
ing plants which she will put on
the market under names of her
own selecting and we predict for
her great success in her chosen
field of horticulture.

Investigation Reveals Policy of the Banks

At the sitting of the Banking
Commission in Vancouver last
week it was brought out that
farmer in that province could
not get a loan of \$100 from the
bank, despite the fact that he
had \$10,000 worth of security,
free of all incumbrances, to
put up for the loan.

One does not need to go far
away to secure evidence of such
conditions as that on the part of
banks under the present system.
A similar case which happened
here was brought to the atten-
tion of the R.V. review a few days
ago. A young farmer whose
business ability and integrity
could not be questioned, applied
at the bank for a loan of
\$200 to make the final payment
on his separator. He had ac-
cumulated \$9000 worth of stock
and equipment free of all incum-
brances. The bank would not
advance him a dollar unless he
got some business man to co-
sign his note. This was finally
arranged with a friend who
wanted only six horses as his
security for the \$200.

Just to show that the bank
would have been taking no
chances with this applicant if it
had advanced the money on his
own note and security, it might
be mentioned that after thresh-
ing the first farm on his list, he
made more than enough money
to pay off the \$200 borrowed and
did pay it off at once. He
thereby showed the whole case
clearly \$1,400 after paying his
expenses. Besides making the
money for himself he also fur-
nished employment to a crew to
run the separator and take part
in harvesting operations.

This all goes to show that for
the past few years the banks as
at present operated have not
been of any assistance to the
"little" fellow who is trying his
best to go along and improve
conditions generally. On the
other hand the supposedly "big"
fellows who are dealing in the
thousands, get unlimited credit,
which, in many cases, is for their
own personal benefit.

There certainly is room for
improvement in our present
banking system.

We were recently told the sad
case of a Scotchman who be-
came engaged to a girl who
went far to want to break off the
engagement. But the girl
couldn't get the ring off, so he
had to marry her.

Girls Still Tied In The Local Softball League

Redcliff Wins First of the Series
And Safeways The Second—
Original Arrangements Dis-
regarded by Management of
Chain Store Crew.

The standing in the Girls'
softball league is still a tie as a
result of the two games of the
series played this week between
Safeways and the Redcliff girls.

At the finish of the league
games Redcliff and Safeways
were tied for first place, and it
was decided to play a home and
some game and to toss the coin
to see where the final game, if
necessary, should be played.
The first game was billed for
Medicine Hat, but, at the re-
quest of Safeways, was played
here last Monday. In this the
local girls won out by a score of
7 runs to 1. The second game
was played in Medicine Hat last
evening and was won by Safeways
with a score of 10 to 4. This
game was called in the 6th
innings on account of darkness
as Safeways could not field its
full team on time.

After being given the credit
for winning this game the man-
agement of the Chain gang took
things into their own hands.
They disregarded all previous
arrangements and decided there
would be no tossing of the coin
to say where the third game
would be played, and "they" de-
cided that the final test would
be staged in Medicine Hat the
following evening, which is to-
night. The reason "Safeways"
management gave for this high
handed action was "because
they had advertised it that way
and they didn't want to disap-
point the readers of their local
paper. Sportsmanship and the play-
ers' reputations were thrown to
the four winds in order to please
a few Medicine Hat fans who
couldn't spare the time to come
to Redcliff to see the game if
our girls had happened to win
the toss.

In this affair no blame can be
placed on the Safeways players
They are a fine bunch of sports
and they freely admitted the
original agreement having been
made and the justice of Redcliff's
claim for its fulfillment.

It is the opinion of the sup-
porters of Redcliff girls that
until the original agreement is
lived up to, Safeways be allowed
to keep the cup.

Unless the weather inter-
feres with the safe way plans
the third and final game will be
played in Medicine Hat tonight.
Dr. Oliver Boyd, one of the
pioneer medical men of Medicine
Hat, passed away suddenly in
the Medicine Hat hospital on
Friday night last. The funeral
was held on Monday from Fifth
Avenue United Church and in-
terment was made in Hillside
cemetery. Rev. E. T. Scarzy
delivered the address. The service
was under the auspices of
Masonic Lodge.

Married men, over 40, have
challenged the softball girls to
a game. The challenge has been
accepted and the game will be
played some day next week.

New Building Being Erected On Broadway

Will Be Two Story Frame Build-
ing Covered with Metal

Work was commenced this
week by T. H. Van Wort and
sons, on the erection of a two
story building 67 by 25 feet, on
the corner of Broadway and
Third street. The building will
be frame covered with sheet
metal and will be rushed to com-
pletion as quickly as possible.

Liberals Win General Election In Nova Scotia

The Conservatives Had Been In
Power For Eight Years

In the Nova Scotia provincial
general election held last Tues-
day the Liberal opposition, led
by Angus Macdonald, swept
from power the Conservative
government, led for the past
three years by Premier S. Har-
rington.

The Liberals elected 21 mem-
bers to 8 for the Conservatives.
This Liberal victory ousted the
Conservative administration in
power in the province since 1925.

Here and There

An orchard consisting of only
one tree which has borne 115
different varieties of apples in
February and 140,000 ounces in
March 1932. 3,978,418 ounces
were produced. This season 17
varieties of apples put forth bloom-
soms.

Canada produced 1,283,585 ounces
of silver during March, com-
pared with 1,307,154 ounces in
February and 1,400,157 ounces in
March 1932. 3,978,418 ounces
were produced. This season 17
varieties of apples put forth bloom-
soms.

Hon. Frank J. Foltz, acting
secretary of state for the United
States in 1918-19, well-known
corporation lawyer and director of
the Bank of Montreal, including
the Chase National Bank and the
Northern Pacific Railway, is stay-
ing at the Banff Springs Hotel
with his family for the summer
vacation.

More than equaling expectations
the New York-Montreal
cruise of the Duchess of Bedford,
left a new holiday record for
special trips recently when 500 pas-
sengers took the excursion. The
cruise was a romantic moon every-
thing and a picturesque run down
the St. Lawrence, the passengers
enjoyed the trip. The trip lasted
three to five hours.

Wheat-cutting is now general in
Manitoba and under way in the
other prairie provinces, according
to a recent weekly report issued
by J. M. McKay, general agricul-
tural agent, Canadian Pacific
Railway, Western Lines. There is
still, however, great need for fur-
ther moisture, especially in the
central and easterly parts of the
grain-growing provinces.

Fresh from a victory in which
he carried an appeal for a sentence
sentenced to hang, to the Privy
Council, ended in commutation to
life imprisonment. Rev. Father
Joseph S. Donovan, of Markham,
Ont., landed at Vancouver from
Hong Kong aboard the Empress
of Canada recently. He was
frankly pleased at his success in
the role of prisoner lawyer, but his
only comment was: "We try to
help where we can."

Seeking the big fish he missed
catching in the Pacific, he was
accompanying their Majesties the
King and Queen of the British
Empire in September 1931 during
their Canadian-American tour.
Rev. General E. de B. Pratt, chief
of the Canadian Pacific Investiga-
tion Department, is on a trip to
the waters of the fishing ter-
ritory of the old state fish of
British Columbia lakes and streams.

Cultural and educational rela-
tions in the Pacific will be
discussed at the fifth Biennial
Conference of the Institute of
Pacific Relations to be held at the
Banff Springs Hotel, August
14-20, though economic problems
will naturally be to the fore in the
discussions. Miss Elizabeth
Green, editor of the Institute's
journal, on her arrival aboard the
Empress of Canada at Vancouver
recently, en route for Banff.

High School Courses Now Available By Mail

For Convenience of Those Un-
able to Attend School

For some years the provincial
department of education has
conducted correspondence
courses in the elementary
grades of school for the conveni-
ence of those unable to attend a
school. Some 2,500 or more,
chiefly those in outlying parts
of the province, have taken ad-
vantage of these. It is now the
purpose of the department to
extend these courses to include
instructions in all four grades of
high school work with the ex-
ception of commercial and tech-
nical courses. A small fee of
\$8,000 per unit taken will be
charged to cover administrative
costs.

JUST FOR FUN

There is a young catcher called
Do,
Can she catch at the bat? I'd
say so!
She is careful and quick,
And she makes Safeways groan.
When she puts 'em out—three
in a row.

Is he conceeded?
Well I'd just like to buy him
at my price and sell him at his!

Dentist's epitaph in a Consecrated
cemetery.
"When on this tomb you gaze
with gravity,
Cheer up! I'm f'iling my last
cavity."

Asked if he might have the
last dance with her she replied:
"You've just had it!"
The only time a horse gets
scarer nowadays, is when he
meets another horse.

Heard on the radio was Ray
Lardner's bright opinion.
"Sorry I can't come to your
dinner Wednesday. It's the
children's night out and I have
to stay home with the nurse."

Churches

Sunday of each month except
first Sunday, at 8:30 a.m.

Grain Competition Now In Progress

For Field Crop of The Junior
Grain Clubs

Judging is now in progress by
officials of the provincial de-
partment of agriculture of the
field crop competition of the
junior grain clubs. There are
this year 117 of these competi-
tions an increase of 46 from last
year. Of these 35 are wheat,
31 oats, alfalfa 21, barley 7, corn
1 and potatoes 1. The mem-
bership in the grain clubs now totals
1,583, and the clubs exceed
from Bow Island on the south to
Grouxville and Grand Prairie
on the north and as far west as
Edson.

PRINCE OF WALES RANCH MODEL AT TORONTO

The model of the Prince of
Wales ranch, which attracted so
much attention at Regina grain
congress, is to be moved to Tor-
onto national fair. The model is
120 feet long and is an almost
perfect replica of the ranch in
every detail.

Miss McBean and Miss Kene,
of Winnipeg, are visiting the
former's sister, Mrs. R. R. Pow
for a few days.

Mr. W. Hagerman of the drug
store staff, is holidaying at his
home in Claresholm and at
Waterton Lakes.

Redcliff Reminiscences

Taken From Our File of August
28th, 1914

"Mr. Frank Edgar Brongton,
a popular young man of this
town, was united in marriage to
Miss Mary Eliza Hawthorne of
Medicine Hat."

The Boy Scouts entertained
their members at camp last week.
The following are the results of
the contests held: Highest aver-
age in senior events, Justin
Hayes; running high jump,
Stanley Fairbairn, 4 ft. 7 in.;
best puffed, Kangaroo; best
kick, Percy Raybould; best
in Hayes; best camp comedian,
Huntley Moore.

Mr. John Jones, another of
the British reservists, left for
Quebec last Friday.

The second contingent of 100
volunteers left Medicine Hat
last night. Those enlisting from
here were: W. Nell, constable
Washford, E. A. Daniels, G. Hen-
derson, W. Stimson, H. Smith
and H. McLean.

Mrs. Moran and her two chil-
dren escaped in their night
clothes from the Northern Hotel
which was gutted by fire on
Tuesday night.

Births. Barnes, Tuesday, Aug.
28th, 1914, to Mr. and Mrs. L. F.
Barnes, a daughter.

The Redcliff Imperial Brass
Co., Ltd., will receive tenders
for building of its new factory,
up to Sept. 30.

Mr. Jas. B. Cull just succeed-
ed in getting out of Germany on
the last boat that sailed, but a
war was declared.

You be the judge

Real Light On Russia.

So many conflicting reports as to conditions in Soviet Russia have been given to the public in recent years, and it has been difficult to distinguish in such reports what is pure propaganda either for or against the political and economic systems now prevailing in that vast country, that people have developed the habit of shrugging their shoulders when Russia is mentioned and refusing to place reliance in much that is told them. It was, therefore, with unusual interest that delegates to the World's Grain Conference at Regina listened to the first hand knowledge which was brought to them by E. J. Strimman, consulting engineer of Brooklyn, Iowa, who was employed by the Soviet Government for several years in connection with its gigantic plans for the mechanization of agriculture as part of its famous five-year plan.

Mr. Strimman had no political axe to grind, he had no propaganda to spread. He merely told an unvarnished story to the assembled world grain experts of the situation as he personally knew it to exist in Russia. And inasmuch as agricultural development in Russia cannot but have a direct effect on agriculture in Western Canada, it is of interest and value to have Mr. Strimman's first-hand information.

Quoting Livitov, Soviet Commissioner of Foreign Relations, as stating at Geneva last June that "employment was cuts and strikes were unknown in the land of the Soviet," Mr. Strimman commented that they were impossible in a country "where bread cars are granted only to the obedient worker." Control of the country's food supply precluded strikes, he said. There is no unemployment because the country's census takes no account of any but the workers—the unfortunate do not officially exist. There is no necessity for wage cuts for the money the government pays its workers had no value outside Russia. It is paper money and will not be honored for anything on a purchase abroad, or on a purchase of imported goods within Russia, Mr. Strimman explained.

Nevertheless there is wage-cutting in a sense, Mr. Strimman giving the following example. The Soviet Government does government loans each year, requiring each worker to turn back a part of his wages for bonds. In a fair job it amounts to a month's wages, which he could use for food. The worker feels keenly but he does not complain.

Russian workers, he continued, by report always poverty stricken, as a whole today have worst living conditions of any of the workers of their neighboring countries in Europe. The Russian could meet conditions in his plodding peasant life, but uprooted and the reserve supplies taken from him, he has no way to cope with winter's cold and the fearful winter hunger. The food supply available to Russian workers has fallen off in quantity steadily since 1928. Clothing, bedding and shoe supply are reduced to almost nothing. Housing has become more and more congested in the industrial and agricultural centers promoted by the Soviet.

Describing the system of farming, Mr. Strimman said farmers lived in villages going out to farm their own individual strips of land. Throwing the land into collective farms was only to obliterate the dividing lines by farming them in one unit. These collective farms were established before the State farms. The State farms were designed as models in each section for collectives and communes. Exorbitant taxes, no right to purchase, the possibility of loss as a consequence of the plan, and the promises of machinery through the government on their collectives quickly brought 90 per cent. of the farmers into collectives in the great drives of 1930 and 1931.

A Soviet State farm is never an independent farm in the western world sense. It remains only the link in a vast network of farms, with Moscow as the centre from which emanates all plans, orders and supplies. The man directing these farms is not often an agriculturist nor even an engineer. "The entire crop is wheat."

State farms are never the direction of a resident farm superintendent. He has several assistants, all with offices and residences in the main settlements. There are directors of the institute, the experimental station, and of grain production. Each of these have further assistants, the number ever growing without end. All were specialists and did no manual labor. The administrative class grows larger and the working class relatively smaller. More and more offices are required and more desks to put in them. The working class gains recognition as the very important consideration and in the seasons of intensive work the women are brought in as "pinch girls." Now, in 1932, it has become necessary to drive the office class back to the farm.

Describing how everything is centralized in Moscow, how even a practical director of a State farm had to wait for orders to begin an operation on his farm that he knew was long overdue, but which, although controlled perhaps thousands of workers, he had no right to start without definite orders from Moscow, Mr. Strimman said:

"One question looms large looking over the situation in this modern dictatorship: How did the government get control over a vast country and over the activities of a conglomerate people? The answer is simple: She got control of the food supply. Why should any people's government need to hold its people by such a strong link? Because the government is the minority party, representing five to seven per cent. of the entire population. Then one wonders why do not more Russians join the Communist party and share the privileges which the very numerous minorities in Russia today? The answer is that it is made very difficult for a Russian to join the Party, and of late only the children of Communists are allowed to join."

Everything, down to the smallest detail, is dictated from Moscow, and control maintained through the collection of fines, taxes and shares of crop. There is never any lessening of centralization by any such change in official circles. It is always neatly explained as an increasing of power in a government dominated by five to seven per cent. of the population and it is the Party Men must be kept in all the major agricultural posts, regardless of ability among "comrades" because in these officials lies the power to control food, production, tax, and justice. It is the Party Men who are the backbone of the family. Thus it is the concern of the government in appointing men to these chief posts that they are "safe" and "good party men." That is the reason why Communists insist that "politics and farm engineering cannot be separated."

Weakening Diarrhoea Dangerous Dysentery

Diarrhoea and Dysentery do not need to run for any length of time until the whole system is weakened and the patient is in a dangerous condition. It is important to use the strength and being about a condition of prostration and other illness.

Dr. Fowler's Extract of Wild Strawberry is not only a powerful laxative, but also a powerful tonic. It is the only medicine that can be taken at the same time it strengthens, stimulates and builds up the system.

Never be without a bottle of Dr. Fowler's. Always be prepared in case of emergency.

Manufactured only by The W. F. Millers Co., Limited, Toronto, Ont.

Grain Deterioration

Saskatchewan Research Workers Develop Method For Treating Damp Wheat

The practical value of the World's Grain Exhibition and Conference is revealed again in addresses contributed to discussion at the conference side of this mammoth gathering by Dr. R. K. Jarmour, J. B. Clayton, and C. L. Wrenshall, of the laboratories of the University of Saskatchewan. These men have been experimenting with wet wheat, with a view to eliminating the development of heat and consequent deterioration of the grain before it reaches the driers at the head of the lakes.

Undue rain seasons have not been a common thing in the agricultural life of prairie Canada in recent years, and yet on occasions we do get protracted rainy spells that carry their threat to cut grain. The three Saskatchewan scientists mentioned have developed a vapor called thionine, that is held to be not inflammable in the slightest, and that carries no danger to the quality of grain, but that yet effectively prevents damage from heat, mouldiness and fungi in the grain consequent upon wet weather.

This would seem to represent a distinct advance in agricultural science, and that Saskatchewan men have been able to reproduce this treatment and impart it to the World's Grain Conference will be a matter of satisfaction to all citizens of this province.—Regina Leader-Post.

Maxims Of His Majesty

Rules For Life Conduct In Current Times At Buckingham Palace

An English Journal in its current issue gives favorite quotations of celebrated people and shows quite clearly how many maxims and maxims whose names and deeds are known through the world fortify their lives by recalling great sayings and maxims. This list of great people is headed by His Majesty King George and his list of quotations is worthy of being repeated. It is not only a list, as well as for the eminence of the one who uses it. These sentiments that hang in his workshop at Buckingham Palace read:

Teach me to be obedient to the rules of the game.
Teach me to distinguish between sentiment and sentimentality, administration and the one and the other.
Teach me neither to proffer nor to receive cheap praise.
If I can learn to suffer, let me be like a well-bred beast that goes away to suffer in silence.
Teach me to win if I may; if I may not, let me lose.
Teach me neither to cry for my moon, nor to cry over my spilt milk.

There is a philosophy of life in these various maxims. Their reading enables one to understand better the wisdom and statesmanship of King George during his reign. Humble folk fighting life's daily battles may find some inspiration in these maxims. They are here given to that end.—Regina Leader-Post.

Round Up Criminals

International Organization Formed To Conduct Drive On Crooks

Police of several nations organized recently in Chicago the "international world police" to chase the criminal from his haunts over the globe. The new international organization was formed at a meeting of Canadian, American and European police officials attending conferences sponsored by Barron Collier, special deputy police commissioner of New York, the international police conference, and the international association of chiefs of police. Whimpering was represented by Chief Chris H. Newton.

Prefer Native Workers

Many thousands foreign residents in Chile are affected by a new law stipulating that 90 per cent. of all factory and office workers in the country be Chilean nationals. Many will have to leave the country to seek work elsewhere. If the foreigner has been in the country 10 years, or is married to a Chilean, he will be counted as a Chilean, and he will be exempt if he is performing duties for which a native is unsuitable.

Club Will Be Exclusive

Aviators who have crossed the north Atlantic alone are going to form a club. Plans for the organization were discussed by Amelia Earhart, Captain and her house guest, Captain James A. Mollison. They brought the idea to Wiley Post, world solo flyer, who expressed approval. Col. Charles A. Lindbergh and Jimmy Doolittle, the latter's flight, also will be invited to join.

London haters recently gave to charity 2,000 old hats left by customers.

Best Quality Shaving Brush FREE for POKER HANDS

It pays to "Roll Your Own" with

Recipes For This Week

by Betty Barclay

STUFFED TOMATO SURPRISE

(Serves 6)
6 medium size tomatoes.
1 tablespoon gelatine.
2 tablespoons cold water.
1/2 cup lemon juice.
1/2 cup boiling water.
1/2 cup orange juice.
1/2 cup ketchup.
1/2 cup diced celery.
Mayonnaise.
Must sprigs (or stuffed olives or pimiento).
Lettuce.

Peel tomatoes and remove centres. Invert and fill. Boil gelatine in cold water 5 minutes. Add boiling water. Stir well. Add lemon and orange juice. Four into a pan of the right size to make a gelatine layer 1/2 to 3/4 inch thick. Chill until jelly is solid. In a cube, half fill tomato shells with shrimp and celery, blessed with mayonnaise. Then fill shells as full as possible with lemon jelly cubes. Garnish with mayonnaise, which may be colored green with spinach juice or vegetable coloring. Arrange tomatoes with mint sprigs, stuffed olive slices or pimiento. Serve very cold in lettuce cups.

BRAN DELIGHTS

1 1/2 cups sifted flour.
1 1/2 teaspoons combination baking powder.
1/2 teaspoon salt.
1/2 tablespoon grated orange rind.
1/2 cup butter or other shortening.
1 cup sugar.
1 egg well beaten.
1 tablespoon milk.
1 tablespoon orange juice.
1 1/2 cups bran flake with other parts of wheat.

Sift flour once, measure, add baking powder and salt, and sift again. Add orange rind to batter and cream thoroughly. Add sugar gradually and cream together until light and fluffy. Add egg, milk, and orange juice, beating well. Add flour; then add flakes and mix thoroughly. Chill until firm enough to roll. Roll 1/4 inch thick on slightly floured board. Cut in desired shapes and bake on ungreased baking sheet in hot oven (425 degrees Fahrenheit) 15 to 20 minutes. Make 4 dozen cookies.

Hourly Nursing Service

New Department In Nursing Is Established At Edmonton

To meet prevalent conditions, and following along lines of nursing organizations in other cities, the Edmonton Graduate Nurses' Association has organized an hourly nursing service in connection with the graduate nurses' registry.

Hourly nursing means care that patients may not secure at home, but have made out by the government. It is learned that Mr. Marler, on the occasion of his last visit to Ottawa, urged upon the government the advisability of going ahead with the legislation construction so that advantage might be taken of the costs of labor and material. The only opposition to the scheme was the scarcity of money for carrying on such a project which committee has been advised to be expected a statement will be issued by the government shortly.

Commodity prices in the Netherlands are rising.

Shaving is a real pleasure with a fine quality shaving brush like this one... bristles set in rubber... a gift you'll surely appreciate and use. Given in exchange for only 5 complete sets of Turret Poker Hands.

One 10c package of Turret Fine Cut will prove the quality and economy of this mellow, cool Virginia cigarette tobacco. You will roll at least 50 cigarettes from one package... and cigarettes of sweet Virginia fragrance and flavour... supremely satisfying.

It pays to "Roll Your Own" with Turret FINE CUT CIGARETTE TOBACCO SAVE THE POKER HANDS

Vimy Ridge Memorial

Understanding Which Is Not Yet Completed

The memorial on Vimy Ridge, which four Canadian divisions and the Thirtieth British Brigade of West Kent and Scots storming in April, 1917, is not yet completed. It is an undertaking massive in conception, 240 acres 200 feet above the Douai Plain, and designed to be worthy of a victory of which Sir Douglas Haig said: "The capture of the renowned Vimy Ridge is an achievement of the highest order and which Canada may well be proud to claim." It is fitting that the sculptor should be a Canadian, Walter S. Allward, who was an award that was opened to the British Empire. Since 1918 he has been engaged on the work in a London studio. "All the time," he says, "I have sought to avoid any semblance of drum-beating. Canada mourns her dead in the way I have endeavored to show in the Mother Spirit, which stands with drooped head on the wall, brooding over the plain on which her sons fell. 'Sorrow not, but victory is there.' Blocks of from twelve to twenty tons were required, and they were found in an old Roman quarry in Yugoslavia, from which the stone to build the Palace of Diocletian in Spalato in the third century was taken.

The cause and cause of France and Canada is to be represented by twin pylons 128 feet high. Below them will be seen the Spirit of Sacrifice in twenty heroic figures grouped in bands of a wall 237 feet high, the base of the memorial. Surrounding the pylons will appear in relief Peace, Justice, Truth and Knowledge. The design calls for the covering of mouths of grief along the base by olive branches and laurel. The memorial should be ready for dedication on Dominion Day next year. The approaches will be by avenues of pine groves in Canada and France.

In F. A. McKenzie's "Canada Day of Glory" may be read the breathless story of the capture of Vimy Ridge. A Canadian correspondent, he does justice to the part the men of Kent and Scotland played in this immortal feat of arms. The dedication would not be adequate without the presence of the commander of the troops engaged, Sir Julian Byng, Governor-General of Canada from 1921 to 1926.—New York Times.

Canadian Legion At Tokio

Structure Nearly Completed and Will Be Ready For Occupancy

It is understood that work on the Canadian legion in Tokio is proceeding rapidly and that the structure will shortly be ready for the occupancy of Hon. Herbert Marler, Canadian minister to Japan. While no secure future has been made out by the government, it is learned that Mr. Marler, on the occasion of his last visit to Ottawa, urged upon the government the advisability of going ahead with the legislation construction so that advantage might be taken of the costs of labor and material.

Settlers In Drought Stricken Areas Of Southern Alberta To Die North

The Alberta government and the railways have agreed to share the costs of moving about 150 settlers from drought-stricken areas in southern Alberta, and only decision of the Dominion government as to its share in the project is awaited, according to Hon. George Healey, Alberta minister of agriculture.

Barley As Food

Mentioned in Exodus 9:31, barley was one of the most important foods of the human race for thousands of years. Here, meat, as barley meal is called in Scotland, forms a favorite dish of porridge at the present day.

Structure Nearly Completed and Will Be Ready For Occupancy

It is understood that work on the Canadian legion in Tokio is proceeding rapidly and that the structure will shortly be ready for the occupancy of Hon. Herbert Marler, Canadian minister to Japan. While no secure future has been made out by the government, it is learned that Mr. Marler, on the occasion of his last visit to Ottawa, urged upon the government the advisability of going ahead with the legislation construction so that advantage might be taken of the costs of labor and material.

The only opposition to the scheme was the scarcity of money for carrying on such a project which committee has been advised to be expected a statement will be issued by the government shortly.

WORLD HAPPENINGS
BRIEFLY TOLD

It has been officially announced at Ottawa, Monday, October 9, would be the national Thanksgiving Day for Canada.

Henry Ford recently passed his 70th milestone, in excellent health and so engrossed with many interests that he has no time think of such things as retiring.

Chertbourg has opened a \$2,500,000 maritime station, and 22 cables, 2000 ft. long, 238 feet wide, in which Paris-bound travellers will be transferred from ships to special trains.

C. Barclay Drummond, vice-president of the Mechanical Equipment Company, died recently in Montreal, after a long illness. He was 58 years old and a son of the late Dr. William Henry Drummond, the noted poet.

East Coulee miners of the Drumheller Valley cut 22 cables, 2000 ft. long, 238 feet wide, in which Paris-bound travellers will be transferred from ships to special trains.

Thirty-two thousand, three hundred and seven sheep, 22,871 cattle, 18,246 hogs, and 22 calves, were shipped from western to eastern Canada during the first 24 weeks of this year.

Nelson's personal log book has been handed over by Prime Minister Ramsay MacDonald to Sir George Hill, director and principal librarian of the British Museum. The entries in the book are in the admiral's hand.

The mobilization of Mexico's resources for rehabilitation of her economic life through a six-year program has begun under the command of General Plutarco Elías Calles, the "iron man" and former president of Mexico.

Columbia revenues for the first quarter of the fiscal year 1933-34 were \$800,000 greater than for the corresponding period last year, states Hon. J. W. Jones, Minister of Finance. Receipts were \$5,510,000 compared with \$5,750,000.

The first calving of new wheat from Manitoba was headed at Moose Jaw, at Gretna, Man., with wheat from the farm of D. Klassen. The grain was an excellent sample, grading No. 1 hard and indicated a yield of 16 bushels to the acre.

Test H.B. Route

Will Investigate High Insurance and Cargo Rates

The Federal Government is prepared to consider the feasibility of tests by Canadian government vessels of the Hudson Bay route before the present accepted route, and after the season, it is indicated by Edward Evans manager of the Southern Saskatchewan stock yards at Moose Jaw. The suggestion is the result of the recent Saskatchewan stock growers conference and its purpose is to determine the justice or otherwise of existing high insurance and cargo rates. Mr. Evans has received notification that an official test of the Department of Trade and Commerce will shortly come to Saskatchewan to discuss the proposal.

New Law Has Precedent

Death Penalty For Kidnapers in Year 1865

If New York state legislators decide to enact a law providing the death penalty for kidnapers, it has been urged, they will have precedent in the colony's first English laws, and precedent is dear to the legal mind.

On March 1, 1655-1659 years ago were promulgated the laws of New York's laws which named 12 offences for which the death penalty was prescribed. One of them was kidnapping. It read: "If any person forcibly stealeth or carryeth away any man or maid, he shall be put to death."

Avast! Victims Found

With the melting of the snow on the Swiss Alps 13 avalanche victims have been found 1,500 feet above Locarno. The 13 were mingling sugar and coffee across the frontier when the avalanche swept them from a pass and buried them under snow, ice and rock 3,000 feet below. Search for the remaining seven is being continued.

Not All Superstitions

A ten-minute checkup on the person trying to negotiate a ladder set up on the sidewalk in Sacramento, California, was as follows: Of the forty-nine women passing, thirty-four walked around and thirty-eight of the forty-nine men did the same. Twenty-three men and twelve women walked under. Possibly some of them don't believe it with a brick—a job of paint.

W. H. U. 1936

Work Of Banking Commission

Monetary System One Of Many Things To Be Studied

The terms of reference under which a banking commission of Lord McMillan, Premier of Alberta, and the Hon. J. G. Macdonald, Minister of Finance, will inquire into the act's operations are: It is desirable that the approach to the periodic revision of the Bank Act should be based on a complete and detailed examination of the provisions of the act and of the functioning of the operations of the banking system.

It is also desirable that such examination should include a study of the facilities now afforded by the Finance Act and a careful consideration of the advisability of establishing a central banking institution, and, if so established, of the relation of such central bank to existing banks and its proper authority and function to the operation of the banking system.

That such examination should also include a study of the entire monetary system of Canada, including credit, currency and coinage, particularly in their relation to commodity price movements and fluctuations in international exchange.

It is also advisable to consider whether and in what respects the banking institutions and the monetary system of Canada may be modified, extended or developed for the purpose of facilitating inter-imperial and international co-operation in public policies designed to promote the revival of domestic industry and enterprise and the general increase of employment and to insure a greater measure of stability in respect thereto.

Nelson's personal log book has been handed over by Prime Minister Ramsay MacDonald to Sir George Hill, director and principal librarian of the British Museum. The entries in the book are in the admiral's hand.

RIVERBEND SCHOOL FOR GIRLS

Manitoba Institution Devoted To Educational And Aesthetic Development Of Young Canadian Womenhood

Attended by success from its inception, Riverbend School for Girls, Winnipeg, will continue its work as a boarding and day school for girls with the reopening in September, according to the prospectus just off the press. A hundred per cent. academic record was again maintained when the 1933 results of the departmental examinations appeared in July, a tribute to the efforts of the teaching staff under the principalship of Miss Joan M. V. Foster, M.A., and to the dual advantage of limited enrolment and small classes with consequent individual attention to the pupils.

The school was established in September, 1928, under the auspices of the United Church of Canada, starting with one building, the home of the late Sir James Aikins, bequeathed to the church for the purpose of giving western Canada one more cultural institution. The school is situated in a growing population. The following year a new building, the former residence of Col. G. H. Aikins, K.C., was purchased and the school moved to its present site.

Respected by the department of education, the school has acquired a reputation with a proud record, the student body, fully aware of the Riverbend's establishing tradition for their Alma Mater. The school began its first term with a teaching staff of fourteen, with Miss Foster again as principal and a structure in history. All holding; and with tested teaching experience, and the members of the staff are specialists in the various fields of the educational and aesthetic development of young Canadian womenhood. Assisting the principal are: Miss Barbara May Ellis, B.A., London University, in English; Miss M. Floyd Stephens, B.A., also London University, in French and German; Miss Mary Elizabeth White, M.A., of Oxford and in Latin; Miss Marie Macdonald, B.Sc., of Dalhousie, in Science and Mathematics; Miss Florence F. R. Mew, of the Margaret Eaton School, in Physical Education; Mrs. Harold Munroe, Manitoba Agricultural College, as house manager.

In the Junior school, presided over by Miss Laura Cull, are Miss Sadie M. Gregory, B.A., of Manitoba University, in English; Miss J. E. Brownlie, Edmonton; Mrs. W. C. Murray, Saskatoon; Mrs. T. A. Vestin, Brandon; Mrs. Douglas J. Ross, Regina; Mrs. A. M. Scott, Calgary; and Miss Alice H. Kenner. The distinguished patronage of His Honor Lieutenant-Governor D. McGeorge and Premier John Bracken, the school functions under the board of governors consisting of James A. Richardson, LL.D.; D. C. Coleman, LL.D.; Isaac Pitblado, K.C.; J. L. G. H. Aikins, K.C.; Principal John Mackay, D.D.; Rev. J. A. Corbin, D.D.; Rev. J. W. Aikens, D.D.; W. M. Neil, J. F. Fulk, J. A. Dewar, and Mrs. David Watt.

Preventing Fire Burns

Adequate Use Of Salt Records And Prevents Spontaneous Combustion

The Ontario Fire Marshal's records show that more barns are destroyed by fire originating from spontaneous combustion in hay than from any other cause except lightning in un-roofed barns.

Harvest weather conditions in 1932 were so dangerous that more barn fires than ever were reported. Indeed there were 278 fewer barns burned in Ontario and a decrease of 17 per cent. in the number of fires known to be caused by spontaneous combustion.

Credit for this is given to the more general use of salt. The adequate use of salt is the most certain way of retarding and preventing spontaneous ignition fires.

Sweden is buying more American passenger automobiles than in 1932.

Australia's wool clip is estimated at 2,842,500 pounds.

Danger Spots For Pedestrians

Five Are Listed For Guidance Of Careless Walkers

Five principal danger spots lurk in traffic for the unwary pedestrian, according to an analysis of accident records. A large proportion of traffic deaths involve persons on foot and the circumstances, listed in the order of their frequency, are: Crossing the street between intersections; crossing at intersections; coming into the street from behind parked cars; walking on or along rural highways, particularly when failing to walk facing oncoming traffic; and children playing in the street.

Duty On Melons

The value for duty purposes on cantaloupes, muskmelons, honey balls, casahuate and honey dew, from August 1 to October 31, has been fixed at 10 cents per hundred, in announcement of the Department of National Revenue says. This valuation applies to those fruits entering Canada under the intermediate or general tariff.

Further Economies Needed

National Revenue Appears To Be Below Level Of Last Year

An examination of the monthly report of the Comptroller of the Treasury at Ottawa furnishes a ready explanation of why members of the Treasury Board should be engaged in a close scrutiny of expenditures with the object of effecting further economies in harmony with the Budget pronouncement of the Hon. Mr. Rhodes.

In spite of the fact that increased taxation was authorized in the Budget speech, current revenue seems to be running below even the level of last year. The unrevised total for the first three months of the fiscal year is given as \$2 millions as opposed to 100 millions for the same period of 1932-33, while current expenditures for the same three months total \$6 millions, three millions below the figure for the previous fiscal year. This would seem to show that, while expenditures are running at a lower level in view of the economies introduced, the revenues are falling even more precipitately, notwithstanding the additional taxes put in force. And the greatest declines are in customs duties, excise taxes, excise duties and income tax.

As compared with the first three months of the fiscal year 1932-33, customs duties collected have fallen by seven millions, excise duties by two millions, excise taxes by another million, and income taxes by six millions. The Department of National Revenue shows that there have been decreases in income tax collections, notwithstanding the higher rates placed in force, in ten districts.

The Minister of Finance forecast a drop of 14 millions in Dominion expenditures during the present fiscal year. The Government may not be able to reach such an objective, but it is quite clear that a downward trend in expenditures is advisable and that it will be welcomed by a great majority of the people of the country—Brookville Recorder and Times.

Prompt and Efficient

Member of Detroit Automobile Club Tells Good Story

Degradation or no degradation, some American organizations coming to give prompt and efficient service. Take the case of the Detroit Automobile Club. A friend of ours who is a member of it thus writes:

"I had a little car smash recently, and presently received a letter from two lawyers demanding that I pay \$225 for damages to the other car. As I felt the accident was not my fault I sent the letter to the automobile club, and the next day both lawyers were struck by lightning. The club think that is carrying things too far, but I suppose the automobile club knows what it is doing."—London Advertiser.

Canada's Hospitals

How well equipped the great majority of Canadian hospitals are is proved by the fact that out of the 883 given as the total, no fewer than 446 maintain their own X-ray departments, while 324 have their own clinical laboratories and 218 their physical therapy departments.

John Dwyer, who died recently in Thurston, Irish Sea, aged 90, was killed from early youth, but developed, as fine a sense of touch as he could repair watches and clocks.

Rugby's imports of leather have declined 80 per cent. in the last four years.

The average life of a locomotive is about 24 1/2 years.

The kangaroo hops 50 feet and can clear a nine-foot fence.

Foretelling End Of World

Prophets Always Find Credulous People Who Believe Them

Once again a prophet has been made to look foolish for foretelling the end of the world on a certain date which has gone without anything happening. In this case it was a rich banker in London, who if he was sane enough not to believe such tomforesy. Yet he had sufficient faith in his beliefs to give away much of his wealth before the prescribed date, and unfortunately he persuaded a number of others to do the same. Today they are all sadder and wiser men.

It is strange that this sort of crankiness occurs from time to time. It has happened in nearly every country under the sun, and the procedure is the same in every instance. The prophet induces credulous people to whom he transmits his religious message to give away almost everything they possess on the ground that they will stand a better chance of ending the world. If the world is to end as he predicts, it is as penance when they leave the world as when they came into it. The fact that the end of the world has been predicted often without result does not appear to deter other prophets from arising.

At Chatham, England, not far from London, is a huge building known as "Jerrett's Tower," about the size of Balmoral Palace in Scotland, which was erected about sixty years ago by a religious fanatic known as "Jerrett." He caused thousands of people to believe that the world would end on a specific day, and they subscribed a huge sum of money to build this place so that they would all assemble within the walls in preparation for the day, die together and pass into the Kingdom. Of course nothing happened, but a large number of dupes retained faith in him and felt that "Jerrett" was just a bit off in his reckoning. So they lived on in the immediate vicinity until they died, handing on the belief to their children, and although "Jerrett's Tower" is now a ruin inhabited only by rats, there are still some people occupying houses in the neighborhood who call themselves the "Jerretites," and can be distinguished by their mode of dress.—St. Thomas Times-Journal.

Music That Endures

Old Composers' Works Outlast Modern Song Hits

The mechanism of music has reduced a song hit's popularity to about three months, a society of composers and publishers complains. So the old record now has a composer's problem rather than a singer's. The singer's song. Now he has to figure out a way to prevent it from being heard too much.

Bill, those three H's—Bach, Beethoven and Brahms—seem able to gain something more than contempt from the familiarity offered by the radio. It's the writers of blues that are blue.—Christian Science Monitor.

Cannot Be Classified

Two fishermen have caught a marine monster that defies classification at Tacoma, Wash. The strange creature has the head and body of a reptile and the gills and fins of a fish. Powerful jaws stretch nearly an inch long. The body is large and muscular for about 18 inches behind the head, then tapers off rapidly into a dark, scaly, reptile-like tail five feet in length.

Source Of Supply

Teacher—"What are the products of the West Indies?"
Boy—"I don't know."
Teacher—"Come on! Where do you get sugar from?"
Boy—"We borrow it from next door."

Gambling With Wheat

Speculators Control Rise and Fall of Grain Market

The ordinary man in the street must be a bit puzzled at the violent fluctuation in wheat. One day he reads that there is a great wave of buying at Winnipeg and Chicago, the central markets for Canadian and United States grains. Wheat shoots up to over a dollar a bushel, ten, fifteen, twenty and even twenty-five cents at a time. The same with corn, rye and barley. Next day he reads that the joyous feelings of yesterday have subsided. Wheat and the other grains have fallen by almost as much as they had advanced. Tomorrow he may read that they have shot away up again. And so the game goes on up and down alternately amid frenzied excitement on the part of those who buy and sell grain by the hundred thousand or million bushels, and to whom a matter of a cent one way or the other may make all the difference between being rich or poor.

Weather and other conditions do not suddenly create all this disparity in the value of grains. One does not read of violent fluctuations in the price of carrots, potatoes, cabbage or apples. And yet they are subject to the vagaries of weather and pests in the same way that wheat is. The reason for the gyrations of the grain market, more especially wheat, is the manipulation by speculators who gamble with one of the vital necessities of life. They bid for wheat that they never see and never intend to take delivery of. They position wheat on wheat from barley if they saw two samples side by side. To them wheat is just something to gamble with. The interest of the million of consumers means nothing to them.

The golgotha in the wheat exchanges were actually seen by Frank Norris in his famous novel "The Pit," and at one time it seemed as if something would result in the way of control of speculation. When the "spread" is as much as twenty-five cents a bushel in a single day there is room for reform everywhere. — St. Thomas Times-Journal.

From Back Of Beyond

Australian Girl Travels 18,000 Miles To Shop in London

Miss Zoe Atkinson had to travel 18,000 miles from the Australian bush, riding fifty miles on horseback, and swimming across three rivers in which there are crocodiles, before she could reach London.

"And it was worth it," she said when interviewed. "She is only twenty-eight, and has seen so much of life in the raw that it became monotonous. Her father is a cattle rancher."

She has gone to see London for the first time.

"Our farm, or station, as we call it in Australia, is a desolate stretch of country in Northern Queensland. The nearest town is Cairns, a small port 300 miles away."

"The station is larger than the whole of London. We have about 10,000 cattle."

"Our nearest neighbors are eighty miles away, but it is risky paying a social call as they might be out rounding up cattle. That means they might not be home for days on end. The nearest doctor and the nearest cinema are a hundred miles away."

"We have learned to do our own doctoring, and as for the cinema I take a trip of 2,000 miles to Sydney, where I have friends, if I want to see a really good show."

"Motoring? Good heavens, no. There are no roads within miles of the Atkinson station."

Miss Atkinson has been shopping in Bond Street.

"That is what I wanted to do most," she said.

Here is the endurance test Miss Atkinson had to pass before that hour in Bond Street was possible.

After riding fifty miles on horseback and dodging crocodiles in the three rivers across which she had to swim, she made a number of railway journeys in which the trains were held up for hours on end while sand was put on to slippery rails.

Other train services were jupped because the bridges were under water. Her luggage had been sent on two months in advance.

There was great excitement aboard the liner.

"Man overboard!" was the cry. "Gentlemen overboard, if you please," said Mrs. de Stables indignantly. "That's my husband."

"Babes," says a writer, "love bright colors." More here, less cry.

Italy expects bumper crops this year.

W. N. U. 2008

The Farm Horse

Can At Least Earn Its Keep At Any Time

The contention that man's abandonment of his old friend, the horse, is an important factor in the present economic situation finds strong support from the Census Bureau. In a pamphlet entitled "The Farm Horse," attention is directed to the decline of 6,315,000 in the number of farm horses and mules in the last decade.

As a result of this decline, "At least 26,000,000 acres of crop land, formerly required to produce horse feed, have been put into other crops. This added acreage, augmented by the release of that part of 3,000,000 acres of plowable pasture formerly devoted to horses, has resulted in surpluses of various crops and livestock greatly lowering farm purchasing power."

The purpose of this pamphlet is to encourage farmers to turn their attention to raising of horses and mules as a good business proposition. Signs of a return to increased use of horses and mules on farms have already appeared. That increase for a time serves only to ease an unemployment situation, for not less than one-fourth of the mature horses and mules are sold to horsemen for pleasure production, and they could at least be made to earn their keep—New York Evening Post.

Five Ton Sculpture

Work Of Epstein Is Creating a Sensation In London

Jacob Epstein's "Primalve Gods," the five-ton sculpture, seven feet by six and one-half feet, is creating something of a sensation in London. The artist has been working on it incessantly since 1910. It is on view at the Leicester gallery, where Epstein's "Genesis" drew thousands at the last show.

"Primalve Gods" is a centrepiece. Two vast seated figures of Hopewood stone are carved in deep relief, one with a man's head, the other a woman's. Between them is a small figure of a child. Epstein, master of plastic sculpture, was born in New York, of Russian-Polish parents, and is 53 years of age. He resides in London, England.

LINDBERGS TO BRAVE ICY MOUNTAINS

Lindbergh's aerial survey of Greenland, on which Mrs. Lindbergh accompanies him as radio operator, is one of the most hazardous of the numerous aerial exploits. Their task is to survey and photograph the coast and ice cap for possible landing places for the proposed trans-Atlantic air service of the Pan-American Airways. The Lindberghs will twice fly across the icy wastes between Godthaab and Scoresby Bay. An emergency plane is in readiness at their base to fly to them if needed. Col. and Mrs. Lindbergh made the hop from Hebron, Labrador, to Godthaab in six and a half hours.

Mecca's Holy Carpets

New One Is Taken To Great Mosque

The Holy Carpet, which is now being carried with great pomp from Cairo to Mecca to cover the Kaaba in the center of Mecca's Great Mosque is made of black brocade with inscriptions woven into it in gold and silk.

These carpets are renewed every year, and when the old one is taken up it is cut and sold to the pilgrims fifteen days after the new one is put down.

All carpets have special significance for Moslems. Every one, whether used in the home, or elsewhere, has an interpretation of its own.

The color decides the meaning. Thus a white carpet means entrance to a black one means illness and trouble, white red or purple represent dignity and yellow, honor and promotion.

The color decides the meaning. Thus a white carpet means entrance to a black one means illness and trouble, white red or purple represent dignity and yellow, honor and promotion.

Art Of Clipping Trees

Dealers Always Search For New Designs In Holland

The art of training and clipping trees in curious designs and in the shapes of animals is rapidly returning to fashion in England, says an article in Pearson's Weekly.

Young trees, to be trimmed and shaped by the gardener, can now be bought for a small sum. Trees are ready shaped cut a pound and upwards, while really intricate designs such as a spiral with figure of a bird on the top cost about ten pounds.

The largest and most delicate trees may setch as much as fifty pounds. This does not mean that a lot of money when it is remembered that it may have taken ninety or one hundred years to produce.

Bird figures are the simplest for the amateur to attempt to cut, and they take between five and ten years to reach maturity. They require twelve of fourteen years' growth, a perfectly rounded ball ten years and a pyramid, five, eight, about fifteen years.

Large and intricate designs have to be trained and supported on wires while they grow, but plain bird shapes are made by splitting a bush during its early life, wiring across and trimming every autumn.

Advantage of climate and hereditary skill of a few people in the art have made Holland the modern home of topiary, where dealers from all parts of the world search for good designs. The designs are sometimes bought outright, but a particularly good tree will secure for its owner, usually a wealthy farmer, a substantial cash sum for an "option."

The balance is paid some years later when the tree is ready for the market.

Britain is beginning to take a new interest in the art, and there are now extensive commercial gardens here where thousands of trees are being raised.

Women are carrying commerce too far. We heard of one who had only twenty-six candles on her forty-second birthday cake the other day.
